

Project for two activities to strengthen French in 2027

Complementary school programme for Grades 1 to 11

Prepared by: Teacher Junior BOOTO

Purpose of the project

This project proposes two simple, visible and progressive activities to strengthen the presence of French at the school in 2027. They complement International Francophonie Day, scheduled for 19 March 2027, and give beginner students three opportunities across the year to listen, speak, play and discover cultural references through French.

Proposed dates in the 2027 school calendar

Date	Activity	Educational contribution
19 March 2027	International Francophonie Day	Diversity of the French-speaking world and the main cultural project
21 June 2027	French and Francophone Song Festival	Listening, pronunciation, rhythm and artistic expression
15 October 2027	A Day in France	Everyday interactions and cultural discovery

The June and October dates are proposals and remain subject to confirmation in the institutional calendar.

Shared principles

- The French used remains accessible to beginner learners.
- Each grade receives a task suited to the students' age and independence.
- Preparation takes place mainly in class so that it supports learning.
- Participation, confidence and intelligibility matter more than linguistic perfection.

Activity 1 French and Francophone Song Festival

Proposed date	21 June 2027
Duration	1 hour 45 minutes
Participants	Grades 1 to 11
Main venue	Large hall
Language level	Beginner with age-based differentiation

Purpose

The festival turns songs into a learning tool. Students memorize short expressions, improve pronunciation through rhythm and discover artists from different parts of the French-speaking world. Each group prepares a brief contribution so that the programme remains lively and feasible.

Objectives

- Develop listening skills and familiarity with the sounds of French.
- Strengthen pronunciation, rhythm and memorization.
- Introduce songs and cultural references from several French-speaking settings.
- Give students the confidence to perform in French before an audience.

Recommended format

- Each class or group presents a two- to four-minute contribution.
- Key lyrics are projected so that the audience can participate.
- Two older students may host the event in French using a prepared script.
- A shared chorus closes the festival and brings all grades together.

Differentiation by grade band

Grade band	Main task	Expected outcome
Grades 1–2	Chorus with gestures and pictures	Four to six clearly articulated words or expressions
Grades 3–5	Short verse and group chorus	Simple introduction of the title followed by a memorized song
Grades 6–8	Adapted song with simple staging	Brief introduction and group performance
Grades 9–11	Hosting, presentation and artistic performance	Introduction of the artist, country or theme and interaction with the audience

Language support for beginners

- Bonjour à tous.
- Nous sommes les élèves de Grade...
- Nous allons chanter...
- Cette chanson vient de...
- Merci de nous avoir écoutés.

Proposed running order

Time	Stage	Description
10 min	Opening	Welcome, purpose of the activity and a very simple vocal warm-up
35 min	Part one	Performances by Grades 1 to 5
10 min	Participatory interlude	Guided chorus or repetition game with the audience
30 min	Part two	Performances by Grades 6 to 11
10 min	Cultural focus	Brief introduction to an artist or a French-speaking setting
10 min	Group finale	Shared chorus, acknowledgements and group photograph

Preparation

Deadline	Expected action
Six weeks before	Select suitable repertoire and assign a song or extract to each group.
Four weeks before	Work on meaning, pronunciation and gestures in class.
Two weeks before	Hold a first rehearsal with the audio track.
One week before	Confirm the running order, scripts and technical needs.
The day before	Test microphones, tracks and projection.

Required resources

- The school sound system, microphones and a computer.
- A projector for lyrics or supporting images.
- Instrumental tracks or versions authorized for school use.
- Simple accessories made or provided by students.
- A running order and a group monitoring sheet.

Success criteria

- Each group completes a short, prepared performance.
- Key words are audible and understandable.
- Students use at least one introductory sentence in French.
- The audience participates in a chorus or listening task.
- Students can identify at least one artist, country or French-speaking region.

Activity 2 A Day in France

Proposed date	15 October 2027
Duration	2 hours 30 minutes
Participants	Grades 1 to 11
Venues	Sports grounds, classrooms and circulation areas
Organization	Six stations with supervised rotations

Purpose

This activity creates a simulated environment in which students use very simple French to complete practical actions: greet someone, choose a product, order, ask a price, buy a ticket or ask for directions. French culture is represented through places, objects, politeness formulas and communication habits.

Objectives

- Reuse everyday vocabulary in a practical situation.
- Build automatic use of greetings, simple requests and polite expressions.
- Understand selected cultural practices related to shops and services.
- Encourage cooperation between students and greater independence among older learners.

The six stations

Station	Situation	Priority language
La boulangerie	Choose pretend bread or a pastry	Je voudrais... S'il vous plaît. Merci.
Le marché	Choose fruit, colours and quantities	Je prends... Combien ? C'est combien ?
Le café	Order a simulated drink or snack	Bonjour. Pour moi... L'addition, s'il vous plaît.
La librairie	Choose a book or comic	J'aime... Je cherche... Vous avez... ?
La gare	Ask for a ticket, a time or a destination	Un billet pour... À quelle heure ?
L'office de tourisme	Ask for a place or directions	Où est... ? À gauche. À droite. Tout droit.

Rotation model

Classes are divided into six circuits. Each rotation lasts twenty minutes, including movement time. A fifteen-minute opening introduces the rules and shared language; a fifteen-minute closing allows students to share the expressions they learned. The complete activity lasts two hours and thirty minutes.

Differentiation by grade band

Grade band	Main task	Expected outcome
Grades 1–2	Greet, point, repeat and choose with pictures	One word, one polite expression and one gestural response
Grades 3–5	Name objects, use numbers and make a choice	Two or three guided sentences with visual support
Grades 6–8	Act out a short customer and seller dialogue	A prepared exchange of three to five lines
Grades 9–11	Run stations and guide visitors	More independent dialogue, cultural explanation and support for beginners

Shared expressions to display

Function	Expressions
Greeting	Bonjour Madame. Bonjour Monsieur. Au revoir.
Requesting	Je voudrais... Je cherche... Où est... ?
Being polite	S'il vous plaît. Merci. Excusez-moi.
Checking	Je n'ai pas compris. Répétez, s'il vous plaît.
Responding	Oui. Non. Voilà. D'accord.

Proposed running order

Time	Stage	Description
15 min	Welcome	Instructions, groups, route card and repetition of shared expressions
120 min	Six rotations	Twenty minutes at each station, including movement
15 min	Closing	Group reflection, remembered expressions and recognition of participation

Preparation

Deadline	Expected action
Six weeks before	Assign stations, leaders and visiting groups.
Four weeks before	Create dialogues, signs and pretend objects.
Two weeks before	Train student facilitators and test each interaction.
One week before	Check routes, timing and signs.
The day before	Set up stations and hold a short simulation.

Required resources

- Tables, signs and clear identification for each station.
- Pictures, clean packaging, menus, books, pretend tickets and play money.
- Route cards or simple sheets for validating interactions.
- Differentiated scripts, vocabulary labels and visual support.
- A timer or sound signal to announce rotations.

Success criteria

- Each student participates actively in at least four stations.
- Each student uses a greeting and a polite expression in French.
- Students in Grades 3 to 11 complete at least one full mini-dialogue.
- Older students support beginners without completing the task for them.
- Movement remains punctual, smooth and supervised.

Shared responsibilities

Role	Responsibility
Coordinating teachers	Educational planning, content approval, calendar and overall coordination
Class teachers	Language preparation, rehearsals and supervision of groups
Students in Grades 9 to 11	Presentation, facilitation, mediation and support for younger students
Technical and logistics team	Spaces, sound, projection, movement and timing
Health and safety staff	Application of the school's usual protocols

Educational follow-up

After each activity, teachers may collect one very short outcome: a memorized expression, a labelled drawing, a mini-dialogue, a recording or a “I can” self-assessment. This follow-up shows progress without turning the event into a test.

Decisions to include in the school calendar

- Provisionally reserve 21 June and 15 October 2027.
- Confirm the large hall and the spaces needed for rotations.
- Allow four to six weeks of preparation before each activity.
- Appoint grade, station and movement leads.
- Integrate student productions into French lessons to avoid additional workload.

Together, these two activities extend International Francophonie Day and give French a regular, practical and positive presence at the school. Their design is simple enough for a first edition while supporting a coherent progression across the year.
